Independent Accountants' Report

The Commissioners of the Missouri Housing Development Commission
Missouri Housing Trust Fund
Kansas City, Missouri

We have audited the accompanying balance sheets of the Missouri Housing Trust Fund as of June 30, 2009 and 2008, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of Missouri Housing Trust Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in *Note 1*, the financial statements present only the Missouri Housing Trust Fund. These statements do not purport to, and do not present the financial position of the Missouri Housing Development Commission as of June 30, 2009 or 2008 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Missouri Housing Trust Fund as of June 30, 2009 and 2008, and the changes in financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying management's discussion and analysis as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Missouri Housing Trust Fund

Notes to Financial Statements

June 30, 2009 and 2008

Note 1: Nature of Operations and Summary of Significant Accounting Policies

The Missouri Housing Trust Fund (the Trust Fund) is authorized by Section 215.034, RSMo to financially assist, by loans or grants, the development of housing stock and to provide housing assistance to persons and families with incomes at or below specified levels. The Trust Fund is administered by and reported as a fund of the Missouri Housing Development Commission (the Commission), which is the housing finance agency for the state of Missouri.

The following is a summary of the more significant accounting policies of the Trust Fund.

Basis of Accounting

The Trust Fund maintains its financial records on the accrual basis of accounting.

The Trust Fund's financial statements have been prepared on the basis of the Governmental Proprietary Fund concept as set forth in Statement 34 of the Governmental Accounting Standards Board (GASB). The Governmental Proprietary Fund concept is utilized when financial activities are operated similarly to private business enterprises and financed through fees and charges.

The Trust Fund has elected not to apply the pronouncements of the Financial Accounting Standards Board issued after November 30, 1989, as prescribed by GASB Statement No. 20.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Classification of Revenues

Revenues and expenses are typically divided into operating and nonoperating items. Operating revenues generally result from providing services in connection with the Trust Fund's principal ongoing operations. The principal operating revenues of the Trust Fund are derived from recording fees and investment income from loans and investments. Operating expenses consist primarily of grants. All revenues and expenses not meeting these definitions would be reported as nonoperating revenues and expenses. The Trust Fund has no nonoperating activities.

Note 2: Investments

Investments include nonnegotiable certificates of deposit reported at cost and U.S. government agency securities reported at fair value as determined by the investment custodians utilizing prices quoted by securities dealers or brokers, investment bankers or statistical services on the valuation date.

Missouri Housing Trust Fund

Notes to Financial Statements

June 30, 2009 and 2008

Investment Policy

The Commission administers the Trust Fund in accordance with Chapter 215 of the Missouri State Statutes. Section 215.034 RSMo directs the State Treasurer to allocate all moneys in the Missouri Housing Trust Fund to the Commission for disbursement and investment as directed by the Statute. Chapter 215 permits the Commission to invest any funds not required for immediate disbursement in obligations of the state of Missouri or of the United States government or any instrumentality thereof, or bank certificates of deposit. At June 30, 2009 and 2008, all of the Trust Fund's investments were in compliance with the state statute.

Investment Types and Maturities

At June 30, 2009, The Trust Fund's investments, which all mature in less than one year, include nonnegotiable certificates of deposits totaling \$2,650,000 and U.S. government agency securities totaling \$2,728,000, as reported. At June 30, 2008, the Trust Fund's investments included no nonnegotiable certificates of deposits and \$5,350,000 in U.S. government agency securities, as reported, which had maturities of less than one year.

At June 30, 2009, as reported at fair value the Trust Fund's U.S. government agencies securities consist of \$815,000 Fannie Mae, \$1,205,000 Federal Home Loan Bank (FHLB) and \$708,000 Federal Home Loan Mortgage Corporation (FHLMC) debt securities. At June 30, 2008, as reported at fair value the Trust Fund's U.S. government agencies securities consist of \$2,233,000 Fannie Mae, \$1,804,000 Federal Home Loan Bank (FHLB) and \$1,313,000 Federal Home Loan Mortgage Corporation (FHLMC) debt securities.

Credit Risk

The following table (in thousands of dollars) provides information on the credit ratings associated with the Trust Fund's investments in debt securities at June 30, 2009 and 2008:

Year	Investment Type	S&P	Moody's	Fair Value
2009	U.S. government agencies	AAA	Aaa	\$ 2,728
2008	U.S. government agencies	AAA	Aaa	5,350

Concentration of Credit Risk

State Statute places no limit on the amount the Trust Fund may invest in any one permitted issuer. The following table lists investments in issuers that represent 5% or more of total U.S. government agency investments at June 30, 2009 and 2008:

Missouri Housing Trust Fund

Notes to Financial Statements

June 30, 2009 and 2008

Issuer	Percent of Total Investments	
	2009	2008
Federal Home Loan Bank	44%	34%
Fannie Mae	30%	42%
Federal Home Loan Mortgage Corporation	26%	24%

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. Protection of the Trust Fund's deposits, including its investment in nonnegotiable certificates of deposits, is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution, or by irrevocable standby letters of credit issued by the Federal Home Loan Bank of Des Moines.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. In accordance with its policy, the Trust Fund addresses custodial credit risk by pre-qualifying institutions with which the Trust Fund places investments, diversifying its investments portfolio and maintaining a standard of quality for its investments.

Investments in U.S. government agency securities are carried at fair value. At June 30, 2009, securities approximating \$2,728,000 are uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent, but not in the Trust Fund's name.

Note 3: Revenue from the State of Missouri

In accordance with Section 215.034, RSMo, the state of Missouri distributes to the Trust Fund a \$3 recording fee collected by the Missouri county recorders for each real estate related document filing.

Note 4: Administrative Expenses

The Trust Fund reimburses the Commission for administrative costs not to exceed 2% of Trust Fund revenues.
